Entry level and experienced wage rates represent the means of the lower 1/3 and upper 2/3 of the wage distribution, respectively.

Data is from an annual wage survey.

The Bureau of Labor Statistics (BLS) calculates employment and wage estimates for each of the States, Metropolitan Statistical Areas and Balance-of-State areas within each state. Kansas occupational wage data are presented in this report. Due to confidentiality and quality criteria, Kansas Labor Market Information Services cannot produce estimates for every occupation in every geographic area. In order to better meet the needs of local users, the Kansas Occupational Employment Statistics (OES) staff has produced wage estimates for other geographic areas within Kansas. These estimates incorporate data from OES and are generated utilizing BLS approved methodology. Data for the OES surveys were collected on different occupational structures and therefore are not directly compatible. They have not been validated by BLS and are therefore not official BLS data series. The Kansas OES staff feels however that they provide additional information that is useful to the users of Kansas data.
